

# Confined Space Rescue

**Program follows OSHA 29 CFR 1910.146, mandated state, federal programs.**

**Team members are trained in first aid, CPR, Hazardous Waste Operations, emergency response (HAZWOPER).**

**Response includes most Imminent Danger to Life and Health (IDLH) situations.**

## FEATURES

- All team members trained in Confined Space Rescue (per 29 CFR 1910.146 requirement), 40-hour HAZWOPER (per 29 CFR 1910.120) and CPR/AED/first aid
- Confined Space Rescue trailers contain more than 80 pieces of emergency-remediation equipment
- MPW works with you to identify your specific confined space entry and rescue needs
- MPW teams train for vertical or horizontal entry, restricted portals, Immediately Dangerous to Life or Health (IDLH) situations, etc.

## BENEFITS

- MPW training minimizes surprises and confusion
- Equipment from Confined Space Rescue trailers allow MPW to adapt to nearly any scenario
- MPW is proactive in mitigating hazards to prevent emergency rescue situations
