

Outage Services

MPW utilizes the best in technology and trained personnel to decrease the duration of outages all over North America.

MPW's rapid response team can be on-site to handle the toughest jobs within just 24 hours.

Automated technology increases efficiency and decreases safety-related incidents.

WET AND DRY VACUUMING

- Safe removal, transport and disposal of non-hazardous waste
- Removes liquids, sludge and dense materials
- Fleet includes transport tankers, Supersuckers and vac trucks
- Selective Catalytic Reduction (SCR) technology allows trucks to operate in enclosed facilities
- Single-mode filtration enables loading of wet or dry materials with no changeover required

WATER JETTING

- 3,000 to 40,000 psi
- OSHA-certified employees undergo 40+ hours of training before arriving on job site
- Equipment inspected prior to and after each use
- Automated air heater technology
- Auto lancing systems
- Automated cyclone cleaning

SPECIALTY SERVICES

- Foam cleaning
- Boiler deslagging
- Confined space rescue
- Cryogenic cleaning
- Video Inspection services
- Fugitive dust removal
