

Corrosion Proofing

Rehabilitation and protection of every type of industrial surface including metal and concrete.

Designed to eliminate the need for costly steel replacement; surpasses regulatory, safety requirements.

Services completed safely, quickly, efficiently at customers' convenience.

SOLUTIONS

- Chemical-resistant linings
- Chemical-resistant coatings
- Chemical-resistant floorings
- Concrete restoration
- Primary, secondary and tertiary containment
- FRP installation and repair

INDUSTRIES SERVED

- Power Generation
- Automotive
- Steel
- Petrochemical/Refining
- Pulp & Paper
- Food & Beverage
- Manufacturing

BENEFITS

- Decades of industry experience ensure that customers receive maximum product performance
- Our corrosion experts customize optimum solutions for our customers
- Our system eliminates revenue losses caused by operational downtime
- Properly coated surfaces can protect against employee/equipment exposure to hazardous chemicals and chemical seepage into groundwater
