

Ash Pond Remediation

Customized, comprehensive remediation plans using the latest technology, equipment.

Efficient, environmentally friendly solutions.

Long-term financial savings.

FILTRATION AND CLARIFICATION

- Conventional filtration (MPW mobile and static solutions)
- Ultrafiltration
- Geotubes with dewatering box

PHYSICAL CHEMICAL TREATMENTS

- Oxidation/reduction reaction
- Organic and inorganic coagulants/flocculants
- Organic metal scavengers
- pH adjustment to facilitate metals removal
- TSS reductions

MOBILE LABORATORY CAPABILITIES

- pH
- TSS
- Turbidity
- Heavy metals (selenium, arsenic, mercury)

WASTE MANAGEMENT

- Identification
- Handling
- Transportation
- Disposal

PROJECT/SITE MANAGEMENT

- Heavy equipment operations
- Daily site operations
- Project management
- Specialty equipment
