

MPW Industrial Capabilities & Services

**AMERICA'S
TRUSTED
INDUSTRIAL
SERVICES
PROVIDER
SINCE 1972**

As the leading provider of integrated, technology-based industrial cleaning, water purification, facility management, compressed air solutions and total waste services in North America, MPW assists in enhancing operational efficiencies, improving reliability and minimizing costs.

In-house engineers and fabrication technicians understand the importance of customized proprietary tooling and mobile operating systems to ensure safety and accommodate unique industry requirements and demands.

INDUSTRIAL SERVICES

Automated Tube Lancing

Boiler Services

Camera Inspection

Coatings Removal

- Chemical Stripping
- Thermal Burn-off

Commissioning/Pre-Commissioning

Cryogenic Cleaning (Dry-Ice Blasting)

Customized Tooling Applications

Decontamination Services

Deep Cleans

Dredging & Dewatering

Dust Mitigation

Engineering & Fabrication Services

Hydro Excavation

Industrial Vacuuming

Paint System Management

- Skids, Fixtures, Jigs, Dolly Management & Cleaning
- Custom Blast Booths

Production Support

Technical Cleaning

Turnaround Services

UHP Cleaning and Cutting

Utility & Environmental Services

- Pipeline Cleaning & Inspection
- Waste Transportation

Water Jetting

24/7 Emergency Response

WATER PURIFICATION SERVICES

24/7 Emergency Response

Water Systems

Mobile Systems

Engineering Design

Degasification

Hydro-Excavation Recycling

Media Filtration

- Re-beds of customer-owned activated carbon systems
- Re-beds of multimedia in customer-owned pressure filters

Deionization (DI)

- Service Exchange DI
- Re-beds of ion exchange resins in customer-owned DI systems

Clarification

- Ash Pond Remediation
- Wastewater Treatment
- High Solids Removal

Ultrafiltration (UF)

- High Solids Removal
- Ultra-filtration/Reverse Osmosis (UFRO)

Reverse Osmosis (RO)

- RO Service and Parts
- Membrane replacements in customer-owned RO systems

Build, Own, Operate and Maintain (BOOM)

- Custom-designed skid-mounted and containerized systems

Products Direct

- Sales & Service

TOTAL WASTE SERVICES

On-site Total Waste Management

Zero Waste-To-Landfill Initiatives

Sustainability Management

Stewardship Programs

Wastewater Treatment (WWTP)

Reporting and Compliance Management

Decontamination

Dredging and Dewatering

Fugitive Dust Removal

Spill Containment and Cleanup

Waste Transportation

INDUSTRIAL AIR UTILITY SERVICES

24/7 Remote Monitoring & Control

Modular Systems

- Compressor, Dryer, Filter & optional Cooling Systems

Leak Detection & System Analysis

Engineering Design & Fabrication

Oil & Oil-free Solutions

- Centrifugal & Rotary Screw Systems

Guaranteed performance

Average of 10-40% Energy Savings

Short & Long-term Rental Options

24/7 Emergency Response
